DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 3-5 rejected under 35 U.S.C. 102(b) as being clearly anticipated by Pischarodi.

Allowable Subject Matter

Claims 2, 6-8 and 10-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 9 is allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gildenberg discloses a device for indicating the position of a rigid body. Although this reference is pertinent prior art, it was not used to reject any claims, in the first office action.
